

# T A I N E R A S M U S S E N

FULL STACK DEVELOPER

[Linkedin](#) | [Github](#) | [Portfolio](#)

---

## TECHNICAL SKILLS

- JavaScript
- MaterialUI
- MongoDB
- React.js
- Tailwind
- Rails & Rspec
- Redux
- Node.js
- Cypress
- CSS & HTML
- Express
- Git

---

## EXPERIENCE

### Fullstack developer – AskYourTeam

Jan 2022 – Present

- Developed multiple features, including filterable user tables and bulk update functionalities, using React and building new APIs to support significant performance improvements. Streamlined permission-setting time for an organisation of 200 from 9000 to just 30 seconds.
- Worked closely with UI/UX designers to implement responsive layouts and accessibility features using React, successfully translating Figma mockups into a more user-friendly application.
- Developed and maintained robust and efficient code to connect backend APIs in Ruby to the user interface built in React, resulting in seamless data flow and improved user experience.
- Design and develop new features for web applications using React and Redux.
- Implemented automated testing using Cypress and Rspec, resulting in more efficient and reliable testing processes and a more stable codebase.
- Maintained and expanded an internal React library by adding new components and updating existing ones to ensure consistency across projects, resulting in a more efficient development process and a reduction in code duplication.
- Participate in code reviews and provide feedback to improve code quality.

### Marketing exec / Customer advisor / Photographer

Nov 2017 – Apr 2021

- Freelance photographer working across fashion and editorial clients working with both print and digital.
- Social media content manager.
- Content audits / maintaining and producing rolling content calendar.
- Subject matter expert / business account manager.
- CXA contact with dev team providing user feedback on internal tool design improvements.

---

## EDUCATION

### Student – Dev Academy Aotearoa

Apr 2021 – Nov 2021

- Gained hands-on experience with full-stack web development technologies, including JavaScript, React, Express, and Node.js, building multiple projects from scratch.
- Developed a strong foundation in software development processes and best practices, including version control, agile methodologies, and testing frameworks. – Jest, Cypress and Rspec.
- Discovered my hands-on learning style and learned how to focus on areas for improvement while seeking out new learning opportunities.
- Collaborated with other developers and stakeholders on various projects, honing my problem-solving and communication skills.
