

T A I N E R A S M U S S E N

FULL STACK DEVELOPER

London | 079944459525 | taine.rasmussen@gmail.com | [Portfolio](#)

PROFILE SUMMARY

As a Full Stack developer, I have a passion for programming and creativity, always eager to explore new technologies. I have completed a comprehensive web development bootcamp and gained professional experience at a SaaS company in New Zealand for the past 14 months. With a solid foundation in web development and technical knowledge, I am excited to bring my skills and curiosity to a new team in London.

TECHNICAL SKILLS

- JavaScript
- React.js
- Redux
- CSS & HTML
- MaterialUI
- Tailwind
- Node.js
- Express
- MongoDB
- Rails & Rspec
- Cypress
- Git

EXPERIENCE

Junior Engineer – AskYourTeam

Jan 2022 – Present

- Developed a new filterable user table feature using React, integrating infinite scroll, pagination functionality, sortable columns, a searchable table, and pop-out modals with detailed information display. Increasing the feature's usability and enhancing the user experience. Created and updated multiple APIs to optimise feature performance and ensure data integrity. Conducted thorough testing and debugging, resulting in a seamless and user – friendly experience for automated report viewers.
- Developed React components for a bulk changes feature, integrating with new APIs to support significant performance improvements. Streamlined permission-setting time for an organisation of 200 from 9000 to just 30 seconds, demonstrating a 30000% improvement in efficiency.
- Translated complex Figma designs and wireframes into high-quality responsive user interface components with React.js, working closely with the design team to ensure accuracy and seamless integration with our product.
- Participated in code reviews and provided constructive feedback to other developers, leveraging my experience and knowledge of React.js and front-end development best practices to ensure code quality, maintainability, and scalability.
- Collaborated with cross-functional teams to ensure application requirements and interface designs were met, while identifying potential areas for improvement. Conducted thorough testing and debugging to promptly address issues and meet project deadlines.

Student – Dev Academy Aotearoa

Apr 2021 – Nov 2021

- In my full stack bootcamp, I gained hands-on experience with Javascript, React, Express, and Node.js, developing a strong foundation in software development processes and best practices. Through various projects, I honed my problem-solving skills while collaborating with others. Additionally, the bootcamp helped me understand my hands on learning style, allowing me to focus on areas for improvement and seek out new learning opportunities.

Marketing exec / Customer advisor / Photographer

Nov 2017 – Apr 2021

- Freelance photographer working across fashion and editorial clients working with both print and digital.
- Social media content manager.
- Content audits / maintaining and producing rolling content calendar.
- Subject matter expert / business account manager.
- CXA contact with dev team providing user feedback on internal tool design improvements.
