# TAINE RASMUSSEN

## FULL STACK DEVELOPER

Linkedin | Github | Portfolio

taine.rasmussen@gmail.com
07944459525

---

## TECHNICAL SKILLS

- JavaScript
- React.js
- Redux
- CSS & HTML
- MaterialUI
- Tailwind
- Node.js
- Express
- MongoDB
- Rails & Rspec
- Cypress
- Git

---

## EXPERIENCE

### Junior Engineer – AskYourTeam                                          Jan 2022 – Present

- Developed multiple features, including filterable user tables and bulk update functionalities, using React and building new APIs to support significant performance improvements. Streamlined permission-setting time for an organization of 200 from 9000 to just 30 seconds, resulting in a 30000% improvement in efficiency.
- Worked closely with UI/UX designers to implement responsive layouts and accessibility features using React, successfully translating Figma mockups into a more user-friendly application.
- Participated in code reviews and provided constructive feedback to other developers, leveraging my experience and knowledge of React.js and front-end development best practices to ensure code quality, maintainability, and scalability.
- Collaborated with senior developers in "T-shaped" cross-functional Agile teams to implement and maintain React best practices, resulting in streamlined development workflows and improved code quality.
- Contributed to various aspects of the technical stack, including continuous integration for automated testing, building and deploying the application, and integrating a feature flag solution to ensure consistent high-quality builds with zero downtime.

### Marketing exec / Customer advisor / Photographer                      Nov 2017 – Apr 2021

- Freelance photographer working across fashion and editorial clients working with both print and digital.
- Social media content manager.
- Content audits / maintaining and producing rolling content calendar.
- Subject matter expert / business account manager.
- CXA contact with dev team providing user feedback on internal tool design improvements.

---

## EDUCATION

### Student – Dev Academy Aotearoa                                         Apr 2021 – Nov 2021

- Gained hands-on experience with full-stack web development technologies, including JavaScript, React, Express, and Node.js, building multiple projects from scratch.
- Developed a strong foundation in software development processes and best practices, including version control, agile methodologies, and testing frameworks. - Jest, Cypress and Rspec.
- Discovered my hands-on learning style and learned how to focus on areas for improvement while seeking out new learning opportunities.
- Collaborated with other developers and stakeholders on various projects, honing my problem-solving and communication skills.
